SUPERSHELL

ITHE PRODUCT IS COMPOST OF SHORT-CHAIN
PROTEIN (AMINO PEPTIDE), VITAMIN AND
ESSENTIAL MINERALS
FOR SHRIMP GROWTH

PRODUCT INFORMATION

Product class	SUPERSHELL																					
Product identification	HUFA, amino acids and mineral premix for shrimp.																					
Product description	SUPERSHELL is hydrolysated protein which extracted from marine species. The product is composed of short-chain protein (Amino peptide), vitamin and essential minerals for shrimp growth. It is easily absorbed and immediately utilized. It has a good flavor and taste which are very palatable. SUPERSHELL increases the shrimp appetite and consumption rate. Used as feed coating to prevent drug and vitamin loss in the water.																					
Useful	<ul style="list-style-type: none"> Stimulate growth and survival rate. Easy to absorb and digest which shrimp fully utilize. To solve the problem of shrimp's size variation and low consumption rate. Uniformity of the body weight. Stimulate the immunity, increase the shrimp's disease resistance and reduce shrimp stress. Prevent and cure the soft shell disease in shrimp 																					
Product specification	Appearance: Powder Color: Light brown colored. Odor: None flavor.																					
Guaranteed Analysis	Each 1 kg. contains <table style="margin-left: 20px;"> <tr><td>• Calcium</td><td>5,000</td><td>mg</td></tr> <tr><td>• Magnesium</td><td>1,500</td><td>mg</td></tr> <tr><td>• Sodium</td><td>35,500</td><td>mg</td></tr> <tr><td>• Zinc</td><td>900</td><td>mg</td></tr> <tr><td>• Lysin</td><td>5,800</td><td>mg</td></tr> <tr><td>• DCP</td><td>150,000</td><td>mg</td></tr> <tr><td>• Excipient added to complete</td><td>1</td><td>kg.</td></tr> </table>	• Calcium	5,000	mg	• Magnesium	1,500	mg	• Sodium	35,500	mg	• Zinc	900	mg	• Lysin	5,800	mg	• DCP	150,000	mg	• Excipient added to complete	1	kg.
• Calcium	5,000	mg																				
• Magnesium	1,500	mg																				
• Sodium	35,500	mg																				
• Zinc	900	mg																				
• Lysin	5,800	mg																				
• DCP	150,000	mg																				
• Excipient added to complete	1	kg.																				
Use	HUFA, amino acid and mineral premix: Use as amino acids and minerals supplement for shrimp all stage																					
Direction of use	Mixed with completed feed, spray with water and let its air dry before feeding																					
Application rate	3-5 g. per 1 kg of completed feed or apply 1 kg per 1500 to 2000 m ²																					
Storage	Keep it in a dry and fresh place, protected from the light. Keep containers tightly closed.																					
Packing/unit	Plastic bag containing 1 kg. x 12 bags/carton.
